

MENTIS
NEURO HEALTH

FOR YOUR PATIENT

The first step on the path to recovery starts here

Mentis Neuro Health is a leading provider of post-acute brain injury rehabilitation, offering Outpatient Day Program services.

Outpatient Day Program Services

Mentis Neuro Health is highly focused on the unique needs of each individual entrusted to our care. We understand the concerns and challenges that can occur following a life-changing illness or injury. We also understand that acquired brain injury affects not only the person who was injured, but also his or her family, friends and co-workers. Our highly specialized rehabilitation program is completely designed with a focus on each individual's specific goals and needs. Comprehensive outpatient day program treatment is provided by a highly skilled team of rehabilitation professionals who are dedicated to optimizing functional outcome after injury.

Mentis provides physical, behavioral, cognitive and vocational rehabilitation to persons who have sustained an acquired brain injury. Our focus is to assist patients meet their community re-entry goals of home independence, return to work or return to school.
